RESULT OF AGRONOMIC TESTS CARRIED OUT WITH VT-TRACTOR TYRES

PRESENTATION OF THE TESTIMONIAL

The tests carried out over a year with an agricultural engineer show the advantages of low-pressure VT-Tractor tyres in improving the efficiency of work in the fields.

FEEDBACK

Testimonial on the advantages of the VT-TRACTOR

“7% reduction in fuel consumption when you lower pressure from 1.6 bar to 0.6 bar.”

“1.8% improvement in efficiency in the field with a lower inflation pressure of 0.6 bar.”

“17% reduction in soil compaction.”
